EDUCATION

Bachelor of Engineering (B.E) - Computer Science Engineering
Chennai Institute of Technology
Cumulative Grade Point Average (CGPA) - 8.75 / 10

2023 – 2027 | Chennai, India

PROFESSIONAL EXPERIENCE

Web Developer Intern, Acutix Soft LLP
• Delivered a responsive web platform using React.js (Vite) and Express.js, improving load speed by 40% (acutixsoft.com [🔗](#)).
• Handled 200+ monthly client requests using Node.js and Nodemailer, ensuring reliable communication workflows.
• Implemented reusable UI components and responsive layouts, improving accessibility across desktop and mobile devices.
• Managed deployment and version control using Vercel, Render, Hostinger, and GitHub, maintaining 99.9% uptime.

Full Stack Developer Intern, Rizzspace
• Created responsive web interfaces using HTML, CSS, JavaScript, and Bootstrap for 5+ internal and client-facing platforms.
• Designed 10+ Figma wireframes and prototypes, accelerating design validation and reducing frontend implementation effort.
• Integrated REST APIs and frontend modules, reducing latency by 25% and optimizing application data exchange processes.
• Standardized UI components across platforms, reducing inconsistencies and improving interface uniformity.

May 2025 – Jun 2025
Nov 2024 – Dec 2024

PROJECTS

LifeLink Network – Real Time Healthcare Coordination Platform, React.js, Node.js, Express.js, MySQL, Socket.IO, JWT
• Built a real-time healthcare platform connecting hospitals and donors, enabling emergency requests through donor matching.
• Established a donor recommendation evaluating compatibility, availability, location, accelerating donor identification by 45%.
• Enabled instant emergency notifications and response tracking through Socket.IO, supporting 250+ user interactions.
• Strengthened platform security using JWT authentication and role-based authorization, streamlining access across portals.

ContextGuard AI - Hallucination Detection Framework, React.js, Flask, MySQL, FAISS, HuggingFace Transformers, Gemini API
• Established document-grounded verification workflows, evaluating 200+ knowledge passages to strengthen response reliability.
• Engineered an LLM verification framework leveraging FAISS retrieval and semantic matching, reducing unsupported responses.
• Architected transformer-driven claim validation pipelines, verifying responses against 1,000+ indexed knowledge chunks.
• Devised response-guard controls enforcing verification thresholds, mitigating unsupported outputs through confidence filtering.

NLP-Driven Personal Memory Assistant with Real-Time Alerts, React.js, Node.js, Express.js, MySQL, Node-cron, Nodemailer
• Engineered an NLP-based reminder system parsing natural language into structured tasks, improving reminder creation speed .
• Executed CRUD operations, automated node-cron workflows, managing 200+ reminders with real-time UI popups and alerts.
• Integrated priority-based email alerts for high-priority reminders, reducing missed tasks and improving productivity tracking.
• Developed RESTful APIs and optimized MySQL schemas, improving reminder retrieval, state management, and data efficiency.

SKILLS

Programming Languages: Java , Python , Javascript
Web Technologies (HTML, CSS)
Frameworks: React.js, Express.js, Node.js, Bootstrap
Libraries: Flask,Streamlit, NumPy, Matplotlib , Nodemailer

Databases: MySQL , MongoDB (basics)
Tools / Platforms: Postman ,Figma, Canva, VS Code, Git/Github
Other Skills: Data Structures, Algorithms, Prompt Engineering, Deployment (Vercel, Render, Hostinger) , System Design , AI

CERTIFICATES

Servicenow: Certified Application Developer CAD (Dec 2025) | Certified System Administrator CSA (Sep 2025)
NPTEL: Cloud Computing (Elite+Silver) | Introduction to Internet of things (Elite+Silver) | Database and Management System
Eduskills: Zero Trust Cloud security | Fundamentals of Cybersecurity (zscalar) | Iot Cloud engineer virtual Internship
CCNA: | Introduction to Networks | Switching, Routing, and Wireless Essentials | Enterprise Networking, Security, and Automation
Cisco: Introduction to Cybersecurity | Cybersecurity Essentials | Python Essentials 1 | Python Essentials 2 | CyberOps associate |
Introduction to Data Science | Introduction to modern AI | Programming essentials in C | Apply AI: Analyze Customer Reviews

COMPETITIVE PROGRAMMING

LeetCode:, Completed 502 coding challenges with a 1750+ rating, strengthening data structures and algorithms expertise.
CodeChef:, Attained 1★ rating (1385) through 50+ contests, demonstrating competitive programming proficiency.
GeeksforGeeks:, Practiced 300+ coding problems covering core computer science concepts and algorithmic patterns.

VOLUNTEERING

- Convenor & Promotion Lead, HACKERZ'26 – Managed branding and outreach for symposium attended by 12,300+ participants.
- Promotion Team Member, HACKERZ'25 – Supported marketing campaigns, increasing visibility and engagement.
- Lead Organizer, H@CIT'26 (Codeathon) – Coordinated coding event with 5,000+ participants, managing registrations.
- Event Coordinator, HackFusion 2025 – Managed hackathon operations and coordination, ensuring structured flow.
